Lithuanians are very respectful people and they want to be treated in the same way. Lithuanian people look silent, but this is just a form of respect, and after you break this little wall of silence, they are very friendly and very honest with you. You will like them!

KTU STUDENT DORMITORIES

Our dormitories are not only modern and attractive, they are also great places to work, relax, socialise and meet new friends. Within the dormitories you will find a friendly, welcoming atmosphere and a real community spirit.

In total KTU has 12 dormitories where all undergraduate, Master's and PhD students, as well as University guests and staff may be accommodated. From 2013, dormitory No. 5 is announced an International Residence. However, international students also live in dormitories No. 2, No. 7, No. 8 (new) and others.

All the rooms (single or double) are equipped with all the necessary furniture for life and studies: a bed, a chair, a desk and a wardrobe. For international students bedding is provided. There is a kitchen with a cooker, a hob, fridge freezer and meal preparing area. All the residents of the dormitories have the Internet access. Also, free laundry and drying facilities are available on the site.

The dormitory fee varies from 70 to 120 EUR. The fee is fixed and paid monthly until the 25 of a month. If you live in a dormitory not for a full month, the period (and the rent) is divided into 2 parts: 1 – 15 of a month (for example, 1 – 15 of September) and 16 – 31 of a month (for example, 16 – 31 of August).

For example, if you start living in the dormitory from the 14 of August, the rent is calculated for the whole month.

During the application process you should notify if you want a dormitory accommodation (however you can move in or out during the studies as well). The distribution of rooms according to your priorities depends on the application or tuition fee payment date, and you will be informed about your residence place before your arrival.

Annual international film festivals are organised, for example Movie Spring (Kino pavasaris), Scanorama, etc. In summer you can watch open air cinema.

dressing right

In Lithuania temperatures are given in degree Celsius °C (to convert to Fahrenheit multiply Celsius by 1.8 and add 32).

Lithuania has a mix of maritime and continental climate. What does it mean? Winters are generally mild and summers are cooler along the coast with temperature extremes increasing inland.

Follow weather forecasts in Kaunas and Lithuania on
▶ www.meteo.lt

Cold weather. You will need warm boots and a coat, and a hat.

Maria Rodriguez Crovetto from Spain

However, don't let these average temperatures to deceive you – the estimates include day and night temperature average and do not always reflect the reality. It could be +30 °C in July and August at midday and -20°C at some nights of cold January. The four seasons of the year are very different in Lithuania and this means that you will need a few sets of different clothing.

Warm winter clothing is a necessity in Lithuania – you will need a warm coat and good winter boots. Warm gloves, a warm hat that covers the ears are

items you will appreciate. Although it can be cold outside, buildings are well-heated and people wear light clothing inside. If you come from Spain, France, Lebanon, India or Azerbaijan you may not find warm clothes in your country; don't worry – you can do the shopping here – bigger choice, lower prices.

Autumn and spring can be rainy. A raincoat and an umbrella as well as water resistant boots will help you to stay dry and warm.

Summer is a good season to go to the beach and enjoy the sun as well as to get a nice tan.

COOKING AT HOME

For those who cook there is a variety of products to buy in the shops or markets. You can even find ready-to-cook products and just use the oven, microwave and etc. at home.

KTU dormitories have kitchen.

Unfortunately, we do not have a large choice of Chinese, Indian, Mexican or Lebanese ingredients and spices, but some may be found. Living independently you may wish to learn cooking (consult senior students, youtube, google or cook together with your Mom on skype) even if at home you did it only occasionally. Isn't it a good experience?

EATING OUT

There are many places to eat on the KTU student campus and in the Faculties (there are University canteens in almost every faculty) between the lectures. The prices may vary but you can have lunch for 10 Lt. There are many places to eat in and around Laisvės Av., the old town, shopping centres, etc. There are Lithuanian, European (especially pizzerias), Chinese, Japanese, Indian, Azerbaijani, Russian, Armenian, etc., fast food, coffee places and tea houses, as well as restaurants. You may expect to pay 5-25 Lt for pizza, ~15-30 Lt for a steak or sea food, 5-7 Lt for a cup of cappuccino at any average place. Ask for special offers or menu of the day and reduce your expenses!

Tipping. While tipping is not obligatory in Lithuania, you may leave some tips (usually 5-10% of the main sum) for a good service and good food.

OUTDOOR ACTIVITIES

Panemunės šilas at the Nemunas river is a pleasant place for jogging, biking, strolling, sunbathing and even swimming (it is behind shopping center Molas, ~15 min on foot from the dormitories). Recently it became a popular spot for barbeque among international students.

Lampėdžiai is a bit further but worth to visit for a lazy or active (opportunities for both options) weekend day at the lake (take a trolleybus No. 7 from Pašilės or Breslaujos bus stop and go for 30 minutes until the last bus stop Kaniūkų 1-oji g.). KAUNAS FESTIVALS

► Kaunas has an annual celebration in May for the city's birthday – **KAUNAS CITY DAYS**.

► **HANSA DAYS** in the end of August will give you a taste of Kaunas centuries ago: the view of medieval traditions, merchandise and state, and public life.

► Every spring and autumn, the international **KAUNAS JAZZ FESTIVAL** invites you to jazz with famous performers in a mix of familiar and non-familiar, large and small venues around the city.

► **THE PAŽAISLIS CLASSICAL MUSIC FESTIVAL**

is recognised internationally and during the three summer months of the festival, you can hear concerts in different halls, churches, and museums around the city.

► In the end of September and the beginning of October you can see the performances of **INTERNATIONAL FESTIVAL OF MODERN DANCE**.

Some of the places have free entrance and sometimes you'll need to pay. The entrance fee is usually between 10 and 50 Litas (3-15 Euros).

health

The Lithuanian health system is organised around the family doctor (Family Clinics, Šeimos klinika). When you have a medical problem, the family doctor is the first to contact, except in cases of the emergency. If you need to consult with a certain specialist, first of all you have to go to the family doctor to get a referral. Medication prescribed by a doctor can be bought at the nearest pharmacy (vaistinė). The purchase of some medicine requires a doctor's prescription. Pharmacies are usually open from 8 to 19, the ones in shopping centers have longer working hours. Every pharmacy indicates the nearest 24 hours opened pharmacy.

In cases of accident or emergency, every hospital (ligoninė) provides first aid.

If you have to visit the hospital in the emergency case, go directly to the Emergency office, usually indicated in Lithuanian: **PRIĖMIMO SKYRIUS**.

If you need to make an Ambulance call, please, dial **112** – Emergency Number. There are no charges for ambulance transport in the cases of emergency.

PSYCHOLOGIST

When living abroad you have to cope with a new culture, new people and new habits, which, along with the studying or training can at times be a burden. Separation from your family and friends can itself make you feel lonely and homesick. Don't be ashamed of it, it's natural. Remember you can contact your teachers or study advisors to talk about personal problems, but don't hesitate to get professional help as well. The most important thing is that you talk with someone as soon as possible about the things that are troubling you, so you don't have to cope with them on your own.

Have you ever seen anything like this? These are some letters from our Lithuanian alphabet, which is based upon Latin. Lithuanian language belongs to the Baltic group of Indo-European languages and represents the West Baltic subgroup. It is the oldest of the living Baltic languages. One says it has much in common with Sanskrit.

Some of you were worried if you can survive in Lithuania without understanding Lithuanian. Of course you CAN! However, you might want to learn some basics. Although your studies are in English and you can communicate with locals in English or Russian (maybe even in French, Spanish or Turkish), street names, signs, advertisements in the streets are in Lithuanian usually. With just a couple of phrases in local language you may achieve much more than you imagine. And for those, who plan to get internship in a Lithuanian company or get a job after the graduation, knowing Lithuanian will increase your chances significantly.

KTU offers LITHUANIAN LANGUAGE COURSES

BANKING

You can easily pay with your credit card or exchange US dollars, euros, and British pounds in Lithuania. But cash withdrawal from ATM using your country's bank credit card is charged by your bank and you may benefit by having bank account (and a bank card) in one of the banks in Lithuania (all of them are strictly regulated by the Republic of Lithuania and all deposits are insured).

When arranging such transfers you may need to show your ID. In addition, banks offer electronic services making it possible for you to manage your bank affairs or payments (such as dormitory fees) on the internet. And then it is free of charge or just some cents. Cash withdrawal at the ATM of your bank is free of charge (you can withdraw up to 1000-2000 Lt per day, consult your chosen bank).

If your parents want to transfer money to your account, please indicate all the details requested for international transfer: exact bank name, SWIFT code, IBAN (international code of your bank account; note that the number of your bank card is different from the number of your bank account). Usually the same account is suitable for different currencies: litas, euros, dollars, etc. Consult the bank employee for correct details.

MONEY EXCHANGE

Money can be changed at any bank in Lithuania as well as at many currency exchange offices in larger cities. It is worth changing large amounts at a time to avoid extra service charges. Traveller's cheques can also be exchanged. Euros and U.S. dollars are easiest to exchange while some other currencies, especially from distant states might be not convertible here. Money transfers to and from abroad incur an extra commission fee, the size of which depends on the destination.

BANK CARDS/MONEY WITHDRAWAL

Bank cards such as Visa, Visa Electron, MasterCard/Eurocard, Maestro, Diner's Club and American Express are accepted in banks, most major hotels, restaurants, shops and petrol stations. Cash points (Automatic Teller Machines/bankomatai) are opened 24 hours every day, and there are plenty of them. Note that money withdrawal in another ATM than of your bank can cost extra charge. Please, contact your bank for details.

If the bank you chose is an international bank and has branches in other countries, you may withdraw cash there without any additional charge.

LIVING COSTS

At the moment, Lithuania is not an expensive country to live in. However the cost of living depends on individual habits and lifestyle a lot. Students have to pay for their books and other materials (if not provided by the library or teacher), plus their accommodation and living expenses.

For example, monthly public transport ticket with student card discount costs 16.80 Lt/4.90 EUR, but if you return late or do not want to wait for a bus, you may take a minibus (3 Lt/1 EUR) or even a taxi (~20 Lt/5.80 EUR). Most of the students cook at home. If you have lunch in the canteen, cafeteria or pizzeria, usually you pay 10-15 Lt/3-5 EUR. If you are planning to travel or to attend cultural and sports events, you will need an extra 200-300 EUR per month.

Lithuanian Student Identity Card (ISIC at some extent too) gives discounts for travelling inside the city and the country, for cinema, museums, books, sports, and etc. Please look on ► www.lsp.lt for a full discount list.

The students can buy prepaid cards, but not the monthly paid contracts. All GSM providers offer various cards: Extra, Labas, Ežys, etc. Usually it is cheaper to talk and to exchange texts among users of the same network. Thus it is better to choose the same GSM provider and the prepaid card for the entire group of friends and spend only spend 7 Lt/2 EUR per month.
