Accommodation	Accommodation for exchange students can be arranged through the International
	Office Accommodation Service (residences/private accommodation). In most
	cases, students would live in a furnished room on campus. Students should
	expect to share a bathroom/kitchen with others.
	For this option, students need to check "Yes, I need accommodation" when they
	fill in the online application. They will receive an accommodation proposal by
	email.
	Email: accomm@uni-bremen.de
	Rental contracts usually start on the first day of a month, e.g. October 1st, or April
	1st. Students, who arrive earlier may have to find interim accommodation. Should
	they arrive significantly later, they may still have to pay rent for the full month.
	Students should also check the exact terms of the contract ending their lease,
	also here sometimes the "full month" period applies, if not explicitly stated
	otherwise.

Health Insurance / Health Services

Each student is required to have international health insurance coverage including **all** medical, hospital and repatriation expenses **without any exception** while in Germany. Health insurance coverage is a prerequisite for enrolment at a university.

Private health insurances of home countries or travel insurances for the purpose of visa applications are <u>not accepted for enrolment at the University of Bremen if they limit the cost of treatments or duration of coverage</u>.

We therefore highly recommend to apply for the statutory health insurance in Germany which covers all possible costs for the term. Offices of several insurance companies are situated on the university campus (hkk, TK, AOK).

For more information please contact the health insurance company directly or the Newcomer Service: newcomer@uni-bremen.de

The statutory health insurance is a special low-cost health insurance ("Krankenkasse") for students and can already be used for the visa applications. Students who intend to participate in the Orientation Week or who arrive in Germany before the official start of the semester (1st October/ 1st April) will additionally need a travel insurance to <u>cover the time gap between their arrival in Germany and the start of the term!</u> The obligatory health insurance covers treatment costs and medicine.

The insurance card is your entry pass to all medical services and preventive care included in health insurance. If you have to stay in a hospital the insurance will **pay** all costs for **your hospital treatment** (if you are exempted from additional payments), nursing, and examinations, (except for the "Eigenanteil" of 10 Euro per day in hospital).
