DEAKIN UNIVERSITY STUDY ABROAD AND EXCHANGE GUIDE

EXCHANGE OR STUDY ABROAD - WHAT'S THE DIFFERENCE?

EXCHANGE

If you are enrolled at one of Deakin's designated exchange partners, you are eligible to come to Deakin as an exchange student. You can study for one trimester or a full academic year, and receive credit towards your home degree

Exchange programs are run on a reciprocal basis, so you will continue to pay your tuition and student activity fees at your home university, rather than paying tuition fees to Deakin. However, to qualify as an exchange student, you will need to be nominated by your home university.

STUDY ABROAD

Study abroad programs are available if your institution does not have an exchange agreement with Deakin or an exchange place is not available. Study abroad students can study for a trimester or a full academic year at Deakin, and are normally required to pay upfront tuition fees to Deakin. Throughout this Guide, you will see the term 'study abroad' used for both our study abroad and exchange programs.

TRIMESTERS

Deakin University uses a trimester system, which is equivalent in course load and duration to a semester system. Two trimesters are still equal to a full academic year.

SHELBY ANN SCOTT

Studying abroad at Deakin has been one of the best experiences of my life! It was quite an adventure and I learned so much! It was great to be in class with students from other countries, my eyes were opened to how people do things differently. It was also great getting to live with students from other countries. I never felt scared because we were all in the same boat and could help each other out. Every experience was amazing! I learned about so many cultures and different ways of life! I would recommend Deakin to anyone! Everyone was so friendly and I loved every second!

I will remember this experience for the rest of my life!

JUAN OREJUELA

My study abroad experience has been wonderful. It has been amazing from start to finish. Starting with the picturesque trip that was orientation and at the end having met amazing people from all over the world. This experience made me explore outside of my comfort zone and explore a different culture, country and way of life.

The classroom experiences at Deakin were interactive and friendly. If I ever needed assistance, assistance was readily available from fellow students and staff. It's a cooperative community. Being in Human Resources Management, this experience made me see various aspects of the field I am studying. It taught me many different strategic approaches as well as the differences in legal systems.

Overall, Deakin takes in international students with open arms. They gave us guidance and helped us build bonds that cannot be forgotten and friendships that are forever lasting.

GLOBAL CITIZENSHIP PROGRAM

The Global Citizenship Program at Deakin University is aimed at supplementing your studies at Deakin with a combination of international activities.

For example, you will receive 60 points for an exchange program, leaving only another 40 points to fully achieve the GCP award.

Your aim is to accumulate a minimum of 100 points and 17 of the 20 skills to complete the program. In addition, you may prepare reflective pieces on many of the activities you participate in, and explore how they have contributed to your development as a global citizen.

Sounds good? How do you become a Global Citizen at Deakin?

HANNAH ROSS

My favourite part of my Deakin experience was the welcome week held in Lorne. We mountain biked on the beach and learned how to surf! Such an amazing experience! During this time, we met so many other international students, and everyone seemed to bond really well. The Burwood Campus is also the perfect size for transitioning to a different country. It is small enough where you don't become overwhelmed or lost, and there were always friendly staff to answer questions.

The cafés located around campus have great vibes, great coffee, and good food. My favourite café was Caffeine, to grab a cup of coffee then sit at their computers to do homework in their vibrant atmosphere.

BRIA BEQUETTE

My experience at Deakin made my first trip abroad amazing. I have said a number of times that the most important part of my journey here was the international student orientation beach welcome trip - hands down. No matter what anyone was feeling on arrival in Australia, whether nervous, excited, homesick, or all of the above, the beach welcome trip made you feel right at home with the school. For three days we got to hang out in one of the most beautiful places doing fun activities, such as surfing and hiking, and we got to do it all with a huge group of international students that were in your exact position of coming to a foreign country. Making friends had never been so easy! Or more important, because I cannot imagine what my experience would have been like if I had not attended the trip. It allowed me to feel comfortable knowing I was not alone on this journey. Between the friends I was already making and the extremely genuine, friendly advisers, I couldn't have felt more at home in a foreign place.

I am utterly grateful, to Deakin not only for the orientation trip, but also for the many events that allowed new and foreign students to interact on campus in a fun, student-friendly environment. Deakin is very much centred around the life of the student and has a goal of making sure each student has a memorable experience. I cannot imagine my time in Australia being as incredible if I had studied anywhere else. Thank you, Deakin, for giving me the opportunity of a lifetime!

BEACH ORIENTATION

Beach orientation is a free, three-day program held in the coastal town of Lorne, a picturesque tourist destination on the Great Ocean Road. You will meet new people and may make some lifelong friends from all over the world! It's a great way to connect to your new Deakin community. You

can also try to spot a koala amongst the eucalyptus trees and see some spectacular coastline. All we need from you is your presence. So jump on the bus and remember to pack your sunscreen and camera – we'll take care of the rest!

SOPHIE CLAYSON

Deakin University gave me so many opportunities to completely throw myself into an Australian way of life, and I loved every minute of it! I was able to go on many hiking trips with the university, involve myself in many student activities and learn so much about the culture. My classes kept me engaged and taught me so much that I would never have had the chance to learn without going abroad. My favourite part of Deakin was the amount of independence I got and the fun activities I did, whilst still feeling completely supported by all the staff and fellow students. Living on campus, I quickly made an amazing group of friends whom I will never forget and really enhanced my trip abroad! Going to Deakin has been a life-changing opportunity and has made me fall in love with not just Australia but Deakin University as well.

GLOSSARY OF TERMS

DEAKIN COURSES

Study abroad students are enrolled as regular Deakin students, undertaking classes with Australian students. Deakin University degrees are made up of individual units (these are commonly called courses in North America), which are generally intended to be undertaken in specific years of a degree. In a Deakin undergraduate degree of three years' duration, studies are taken at three levels: first year (100 level), second year (200 level) and third year (300 level), generally equivalent to second, third and fourth year of a US degree. Some Deakin degrees are longer in duration, such as engineering, architecture and law, and are studied over four or five years. Exchange and study abroad students in postgraduate degrees can also enrol in Deakin units from level 700.

Most units (above first-year introductory units) have prerequisites that must be satisfied before admission will be approved. If you apply for admission to a unit that has prerequisites, Deakin faculties will look at your academic record to determine whether you have passed units comparable in content to Deakin prerequisites. Consequently, it is not advisable to apply for admission to an advanced level unit with prerequisites (i.e. 200 or 300 level) if you have no academic background in that discipline.

TEACHING METHODS AND ASSESSMENT

The Australian academic system is based upon the UK system. There is a range of teaching methods depending on your discipline of study. You will generally have a combination of lecture and tutorial classes. Lectures can vary in size from 35 to 200 students; tutorial classes are much smaller and allow for open discussion of issues raised in lectures. Depending on your discipline, you also may undertake laboratory classes. Fieldwork also forms a large part of some units of study. The formal contact hours vary across units, however great emphasis is placed upon independent study outside of class contact hours.

ASSESSMENT AND GRADING

Final grades are based on assessment of written work, tests undertaken throughout the trimester, participation in class or laboratory attendance, and final examinations. Most, but not all, undergraduate units involve an examination usually

held at the end of the unit. The weighting applied to each assessment procedure varies from unit to unit, however your examination may be worth up to 70 per cent of your final grade. Please check each unit to see the weighting of assessments.

CREDIT TRANSFER

An official Deakin academic transcript will be issued upon the completion of your study abroad program. This transcript will usually be sent to the address you nominate in the Study Abroad Application Form. For ease of credit transfer, you should arrange approval of Deakin units with your home institution prior to arrival in Australia, and it is highly recommended you check with your home institution the amount of credit you will have transferred to your home degree.

STUDY LOAD

Study abroad students must enrol in a fulltime load of 3–4 credit points per trimester. One Deakin credit is equivalent to 7.5 ECTS (European Credit Transfer and Accumulation System) credits. Most units have a weighting of 1 credit point, which means you should take 3–4 units (courses). As the study abroad tuition fee is a fixed fee, it remains the same regardless of the number of units taken.

GRADES AWARDED

(High Distinction) 80 – 100%, (Distinction) 70 – 79%, (Credit) 60 – 69%, (Pass) 50 – 59%, (Failure) 0 – 49%

ACADEMIC CALENDAR

When planning your program, keep in mind that the Deakin academic calendar follows the calendar year:

Trimester 2: July to October study period
