Accommodation	We arrange a studio apartment equipped with appliances such as TV, microwave, washing machine, refrigerator, air conditioner within a walking distance to our campus. The rent per month is approximately 30,000 yen plus utilities (water/electricity/gas) and Internet OR 45,000yen including those.	
Surrounding area	(Higashiosaka campus) There are supermarkets/grocery stores, post office, convenience stores, 100 yen shop and diners in the neighborhood. It is about 15 minutes to the nearest train station on foot.	
Estimated monthly living costs (The actual living costs will depend on the choices and the lifestyle)	Food	approximately 20,000 ~ 25,000 yen (mainly self-catering)
	Utility charges	approximately 7,000 ~ 8,000 yen (water, gas, electric bill)
	Personal expenses	approximately 50,000 ~ 80,000 yen (transportation, clothing, phone, leisure, etc)
National Health Insurance and Study Abroad Health(sickness) / Accident insurance	All international students who stay in Japan over 3 months are required to subscribe to National Health Insurance (NHI). NHI covers 70% of medical expense and an international student is responsible for the rest, 30% of the expense. (Treatment which is not considered as “medical treatment” such as complete medical checkup, treatment for cavity prevention, orthodontic and cosmetic surgery are not covered by NHI) NHI premium per month is around 2000 yen. NHI does not pay a residual disability benefit and an emergency reunion benefit, therefore we require all exchange students to purchase a Study Abroad health (sickness) / accident insurance before they leave for Japan. A Study Abroad health (sickness) / accident insurance certificate is one of the required documents for application.	
Credit card	We recommend all incoming exchange students to bring at least one credit card to Japan just in case. Visa card and Master card are widely accepted in Japan. UnionPay card and Discover credit card are not convenient to use in Japan. (Limited availability)	
Mobile Phone	SIM-Free mobile phones / smart phones will work with an appropriate SIM card which is available in Japan. There are two ways to get a SIM card. One is a purchase of a pre-paid SIM card and the other is a subscription SIM card plan. It is necessary to make sure if the device is compatible with a SIM card on the service provider website. The device should be unlocked and compatible with Japanese mobile network (typically 3G UMTS 2100MHz,	

	<p>3G CDMA2000 800 MHz, or LTE band 1) to use in Japan. Most modern 3G and 4G phones are compatible with one or more of these networks. There is no GSM network in Japan, so GSM-only phones do not work. Many older phones may not work due to different technologies. Most of the SIM cards which are available in Japan are compatible with SIM-Free iPhones.</p>
