

National Taipei University English Track Programs

Undergraduate and Graduate English Course

English Track Programs

Master Program of Business Administration (MBA) in Finance

Master Program of Business Administration (MBA) in Finance at the College of Business, National Taipei University opens its door to international students since the fall semester of 2013. This innovative and completely English-taught program accepts international students who would like share their learning experience and interact with local students. The purpose of this program is to become the world-class incubation center of future financial leaders equipping them with global view with Asian perspective.

International Program on Urban Governance (IPUG)

Given the extremely intensive global urbanization and the sea change in technology advancement, cities are taking a different form in development from the previous ones and need much greater care in management and planning. It is the mission of the International Program on Urban Governance at the National Taipei University to foster global leaders in urban government with a theme focused on managing urban complexity to improve built environments.

Ph.D. Program in College of Electrical Engineering and Computer Sciences

The Ph.D. program in College of Electrical Engineering and Computer Sciences is open to students who have a master's degree and are dedicated to research, where their abilities for developing practical applications in technology and high-level integration of electrical engineering and computer sciences will be honed. We offer courses in intelligent computing, IC design, and information/communication engineering, where we expect students will be interested in learning, accomplishing useful research and developing teamwork.
